A. Uses and Disclosures of Protected Health Information

By applying to be treated in our office, you are implying consent to the use and disclosure of your protected health information by your doctor, our office staff and others outside of our office that are involved in your care and treatment for the purpose of providing health care services to you. Your protected health information may also be used and disclosed to bill for your health care and to support the operation of the practice.

Uses and Disclosures of Protected Health Information Based Upon Your Implied Consent

Following are examples of the types of uses and disclosures of your protected health care information we will make, based on this implied consent. These examples are not meant to be exhaustive but to describe the types of uses and disclosures that may be made by our office.

Treatment: We will use and disclose your protected health information to provide, coordinate, or manage your health care and any related services. This includes the coordination or management of your health care with a third party that has already obtained your permission to have access to your protected health information. For example, we would disclose your protected health information, as necessary, to another physician who may be treating you. Your protected health information may be provided to a physician to whom you have been referred to ensure that the physician has the necessary information to diagnose or treat you.

In addition, we may disclose your protected health information from time-to-time to another physician or health care provider (e.g., a specialist or laboratory) who, at the request of your doctor, becomes involved in your care by providing assistance with your health care diagnosis or treatment.

Payment: Your protected health information will be used, as needed, to obtain payment for your health care services. This may include certain activities that your health insurance plan may undertake before it approves or pays for the health care services we recommend for you such as making a determination of eligibility or coverage for insurance benefits, reviewing services provided to you for medical necessity, and undertaking utilization review activities. For example, obtaining approval for procedures may require that your relevant protected health information be disclosed to the health plan to obtain approval for those services.

We may use or disclose your protected health information, as necessary, to contact you to remind you of your appointment.

We will share your protected health information with third party "Business Associates" that perform various activities (e.g., billing, transcription services for the practice). Whenever an arrangement between our office and a Business Associate involves the use or disclosure of your protected health information, we will have a written agreement with that Business Associate that contains terms that will protect the privacy of your protected health information.

B. Your Rights

Following is a statement of your rights with respect to your protected health information and a brief description of how you may exercise these rights.

You have the right to inspect and copy your protected health information. This means you may inspect and obtain a copy of protected health information about you that is contained in a designated record set for as long as we maintain the protected health information. A "designated record set" contains medical and billing records and any other records that your doctor and the Practice uses for making decisions about you.

Under Federal law, however, you may not inspect or copy the following records: psychotherapy notes; information compiled in reasonable anticipation of, or use in, a civil, criminal, or administrative action or proceeding, and protected health information that is subject to law that prohibits access to protected health information. Depending on the circumstances, a decision to deny access may be reviewed. In some circumstances, you may have a right to have this decision reviewed. Please ask your doctor if you have questions about access to your medical record.

You have the right to request a restriction of your protected health information. This means you may ask us not to use or disclose any part of your protected health information for the purposes of treatment, payment or healthcare operations. You may also request that any part of your protected health information not be disclosed to family members or friends who may be involved in your care or for notification purposes as described in this Notice of Privacy Practices. Your request must be in writing and state the specific restriction requested and to whom you want the restriction to apply.

Your provider is not required to agree to a restriction that you may request. If the doctor believes it is in your best interest to permit use and disclosure of your protected health information, your protected health information will not be restricted. If your doctor does agree to the requested restriction, we may not use or disclose your protected health information in violation of that restriction unless it is needed to provide emergency treatment. With this in mind, please discuss any restriction you wish to request with your doctor.

You may request a restriction by presenting your request, in writing to a staff member in our office. The staff member will provide you with "Restriction of Consent" form. Complete the form, sign it, and ask that the staff member provide you with a photocopy of your request initialed by them. This copy will serve as your receipt.

You have the right to request to receive confidential communications from us by alternative means or at an alternative location. We will accommodate reasonable requests. We may also condition this accommodation by asking you for information as to how payment will be handled or specification of an alternative address or other method of contact. We will not request an explanation from you as to the basis for the request. Please make this request in writing.

You may have the right to have your doctor amend your protected health information. This means you may request an amendment of protected health information about you in a designated record set for as long as we maintain this information. In certain cases, we may deny your request for an amendment. If we deny your request for amendment, you have the right to file a statement of disagreement with us and we may prepare a rebuttal to your statement and will provide you with a copy of any such rebuttal. Please ask your doctor if you have questions about amending your medical record.

You have the right to receive an accounting of certain disclosures we have made, if any, of your protected health information. This right applies to disclosures for purposes other than treatment, payment or healthcare operations as described in this Notice of Privacy practices. It excludes disclosures we may have made to you, to family members or friends involved in your care, pursuant to a duly executed authorization or for notification purposes. The right to receive this information is subject to certain exceptions, restrictions and limits.

You have the right to obtain a paper copy of this notice from us, upon request, even if you have agreed to accept this notice electronically.

C. Complaints

You may complain to us, to the Texas Attorney General's Office, or the Secretary of Health and Human Services, if you believe your privacy rights have been violated by us. You may file a complaint with us by notifying our Privacy Officer of your complaint. We will not retaliate against you for filing a complaint.
